

Paradise Outdoors Irrigation Maintenance Plans

Regular maintenance protects your investment by preventing expensive landscape and turf damage, saves water, and extends the life of your system components. We offer three levels of irrigation system care to fit your needs and budget. Each plan includes scheduled inspections and hands-on tune-ups from our trained technicians to keep your irrigation system running smoothly all year. We also offer add-ons to monitor your irrigation so you don't have to think about it while you're out of town. Choose the plan that's right for you and enjoy healthy landscape and turf without the worry and hassle.

Basic Plan — Essential Care

\$24/mo (3 visits/year)

(covers up to 6 zones; add \$12 per month for each additional zone)

Includes:

- **3 Visits Per Year**
 - **Spring Start-Up:** We prime the pump (if needed), check all zones, and ensure the controller and heads are working properly.
 - **Mid-Year Check:** We inspect and adjust everything to make sure the system is running efficiently during peak season.
 - **Winterization:** Before the first freeze, we shut the system down properly to protect it from cold weather damage.

- **Full System Tune-Ups**

At Spring start-up and mid-year checks, we run every zone and inspect for leaks, adjust spray patterns, clean nozzles, and optimize the timer settings for the season.

- **Peace of Mind**

The Basic Plan gives you peace of mind that your system will be optimized in the spring, protected from freeze damage in the winter, and checked out mid-year at a price that's easy on the wallet.

- **Water Usage Reports**

Hydrawise customers will receive monthly and annual status reports.

Standard Plan — Enhanced Care

\$39/mo (5 visits/year)

(covers up to 6 zones; add \$12 per month for each additional zone)

Includes:

- **5 Visits Per Year**

- **Spring Start-Up:** We prime the pump (if needed), check all zones, and ensure the controller and heads are working properly.

Three Mid-Year Checks: We inspect and adjust everything to make sure the system is running efficiently during peak season.

Winterization: Before the first freeze, we shut the system down properly to protect it from cold weather damage.

- **Full System Tune-Ups**

At each visit except during Winterization, we run every zone, inspect for leaks, adjust spray patterns, clean nozzles, and optimize the timer settings for the season.

- **5% Discount on Repairs**

Save on parts and labor if any repairs are needed during the year.

- **5% Discount on New Equipment** Includes pumps, timers, valves, and flow meters.

- **Priority Scheduling**

If an issue comes up between visits, your service request gets moved to the front of the line, a major upgrade during our peak season when wait times can exceed two weeks.

- **Half Price Service Calls**

Service calls needed between visits are half price, a **\$50 savings each visit**.

- **Enhanced Performance**

Regular hands-on care keeps your lawn and landscape healthy and your irrigation system efficient all season long.

Premium Plan — Ultimate Care

\$84/mo (10 visits/year | monthly Mar - Dec)

(covers up to 6 zones; add \$12 per month for each additional zone)

Includes:

- **10 Monthly Visits**
March through December — our most comprehensive plan. We inspect and tune up your system monthly, ensuring consistent performance and catching any problems early.
- **Full System Tune-Ups**
At each visit except during Winterization, we run every zone, inspect for leaks, adjust spray patterns, clean nozzles, and optimize the timer settings for the season.
- **Free remote monitoring** for Hydrowise customers
- **Free service calls** Service calls needed between visits are free of charge, a **\$100 savings each visit.**
- **10% Discount on Repairs**
Deep savings on any irrigation parts and labor throughout the year.
- **10% Discount on New Equipment**
Includes pumps, timers, valves, and flow meters.
- **Priority Scheduling**
If an issue comes up between visits, your service request gets moved to the front of the line, a major upgrade during our peak season when wait times can exceed two weeks.

Optional Add-Ons

Additional Zones

All plans cover up to 6 zones. For larger systems, just add **\$12 per extra zone** to your monthly plan.

Smart Controller & Remote Monitoring

Upgrade to a Wi-Fi-enabled smart controller and we'll monitor your system remotely. You'll also be able to control it from your smart phone. Adjust schedules, skip watering on rainy days, and get alerts—all from anywhere.

Remote Monitoring & Leak Alerts

We will be able to watch your system remotely. If you have a broken pipe or if your system stops flowing water, we will know about it in real time and will be able to correct the problem before you lose your investment or waste water. This requires a flow meter.

Flow Meter

Add a flow sensor for advanced protection. If your system has a leak or break, the flow meter detects the issue instantly and shuts off the zone. Both you and our team are alerted right away, saving water and preventing damage.

Why Choose a Maintenance Plan?

Irrigation issues can sneak up fast—dry spots, overwatering, high water bills, or broken parts. Our maintenance plans are your protection. For a low monthly fee, we check your system regularly, fix problems early, and give you priority when service is needed. It's a smart way to protect your landscape and avoid surprise costs.

Enjoy a Lush Lawn and Landscape—Worry-Free

Our plans are built for Northwest Florida homeowners and businesses who want a hassle-free, dependable irrigation maintenance solution. Whether you just want the basics or full-service care with remote monitoring, Paradise Outdoors has a plan for you.

Let's Get Started

Call Paradise Outdoors today to choose your maintenance plan and schedule your first visit. We'll make sure your system runs strong, your landscape and turf stay healthy, and you stay worry-free.
